PROFILE

Freelance Web Developer, SEO Specialist and Digital Marketing Expert. I build fast, responsive websites with HTML, CSS, JavaScript and Divi/WordPress, optimize them with complete SEO (on-page, off-page, technical), and grow brands through result-driven Meta & Google Ads campaigns. My medical background strengthened my analytical and research skills, which I now apply to data-driven digital growth strategies.

EXPERIENCE

Web Development — Specialist

June 2023 – Present

Designed and developed responsive websites using HTML, CSS, JavaScript, and Divi/WordPress, focusing on performance, mobile-friendliness, and clean user experience.

SEO Optimization Services — On-Page & Technical SEO Expert

March 2023 – May 2024

Improved website visibility through on-page SEO, keyword integration, technical fixes, and content optimization, resulting in higher search rankings and increased organic traffic.

Digital Marketing & Ads — Ads Manager

August 2024 – Present

Set up and managed Meta and Google Ads campaigns (audience targeting, creatives, budget optimization) to drive qualified traffic, improve conversions, and lower cost-per-click.
